-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3711

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over McGrath in view of Caldwell. Claims 1-9 are rejected for the reasons set forth in the previous action. In response to applicants' request for the examiner to supply a reference supporting the official notice taken by the examiner, Caldwell has been cited to teach that the use of cork as a substitute for foam and urethane as a damping/vibration absorbing material, and to teach that foam is a known elastomer damping material. (Note Col. 1, lines 7-19 specifically and the balance of Caldwell's disclosure generally). Moreover, note that a single reference teaches these well known facts and that they are taught in an analogous art.

Regarding the applicant's comments on McGrath and foam, note, as taught by Caldwell, that foam also comes in elastomeric forms such as Caldwell's disclosure of foamed urethane. Also, it is pointed out that as applicant himself states, non-elastomer foam may be used in McGrath thus negating applicant's argument that McGrath teaches away from materials such as cork which do not stretch to twice their original length and then retract.

Finally, regarding the density of cork and its use as a material in McGrath's blade, applicant has supplied no indication as to what types of cork, elastomer, foam, and rubber are measured for COR in the supplied sheet. As applicant is surely aware, the COR of each of these materials may be varied as desired depending on the application desired. Furthermore, the fact that McGrath teaches various materials indicates that the use of varied COR's is part of his

Art Unit: 3711

invention and using one commonly known material of the class of materials disclosed by McGrath to obtain a particular weight or COR in the stick would clearly have been obvious to the ordinarily skilled artisan absent a showing of unexpected results. It is also noted that applicant has not even claimed a particular density or COR in the blade.

Applicant's arguments filed 1/19/05 have been fully considered but they are not persuasive.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Mark S. Graham at telephone number 571-272-4410.
